

# INDEX TO VOLUME XVIII

## AUTHORS INDEX

### A

ARMBRECHT, EDWARD C. The practice of oral surgery, 85

### B

- BACH, ERNEST N. Some newer designs in labial and lingual appliances and their construction, 47
- BADCOCK, J. H. Orthodontics: a survey, 325
- BAKER, CHARLES R. President's address before the American Society of Orthodontists, 1251
- BAKER, LAWRENCE W. The teaching of practical orthodontia in the undergraduate curriculum, 553
- BERY, N. N. Our present knowledge regarding the etiology of malocclusion, 22
- BLAIR, VILRAY PAPIN. Congenital atresia or obstruction of the nasal air passages, 516
- , AND BROWN, JAMES BARRETT. Nasal abnormalities, fancied and real, 363
- BLOODGOOD, JOSEPH COLT. Fibroma, wart, diffuse papilloma of mouth and tongue, 874
- , Hemangioma, lymphangioma, and ranula, 1316
- , Lesions of the oral cavity and of the jaws and of the region of the jaws, including the temporal fossa, orbital cavity, and sinuses, 491, 633, 740, 874, 993, 1109, 1218, 1316
- , Protection from cancer arising in the lining of the mouth or in the region of the teeth or jaws, 402
- , Syphilis, geographical tongue, and hypertrophied papillae, 1218
- , Tuberculous ulcer, 1109
- , Ulcer of oral cavity and tongue, 993
- BLUMENTHAL, FRED R. Place of graduate orthodontia in dental education, 565
- BODECKER, CHARLES F. Critical review of Gottlieb and Orban's "Die Veränderungen der Gewebe bei Uebermaessiger Beanspruchung der Zähne," 895
- BOWLES, CHARLES F. Facts of importance in tooth movement, 54
- BRADFORD, CLARA DE LONY. Orthodontia assistance, 849
- BRADLEY, SYDNEY W. Some useful instruments used in orthodontic practice, 610
- BRAY, C. B. Dental conditions in children; its importance to the pediatricist, 852
- BROWN, JAMES BARRETT. (See Blair, Vilray Papin, and Brown, James Barrett), 363
- , (See Muckenfuss, Ralph S., and Brown, James Barrett), 988
- , Cystic adamantinoma with resection, including condyle, from inside of mouth, 1104
- , Deep block anesthesia of the second and third divisions of the fifth nerve, 193
- , Feeding of a liquid diet, 614
- , Hyperparathyroidism associated with multiple giant cell tumors of jaw, 735
- , Types of chronic infection about the mouth, 1311
- , AND HAMM, W. G. Acute infections about the jaws of dental origin, 504
- , and —, Diagnosis and treatment of lesions preventing normal opening of the mouth, 353
- , GROVE, E. W., AND PITTMAN, J. E. Acute infections about the lips, 1212
- BRUSSE, A. E., AND CARMAN, J. L. Progressive guide plane, 243

### C

- CALE-MATTHEWS, G. F. President's address before the 1930 Congress of the European Orthodontological Society, at Zurich, 1
- CAMPION, DENNIS H. (See Campion, George G., and Campion, Dennis H.), 1170
- CAMPION, GEORGE G., AND CAMPION, DENNIS H. Facial measurements in diagnosis, 1170
- CARMAN, J. L. (See Brusse, A. E., and Carman, J. L.), 243
- CASTO, FRANK M. Some problems related to orthodontic treatment, 122
- CHAPMAN, HAROLD. Orthodontics, extraction as part of treatment, 581
- COTTON, W. A. Diet for children, 1202
- CROSBY, ALBERT W. To what definite causes may malocclusion and its attending oral and facial abnormalities be attributed, 1259
- CURRENCE, JOHN D. Focal infection in arthritis and rheumatic affections, 1320

### D

- D'ALISE, CORRADO. Prophylaxis of malocclusion, 1038
- DAVIS, ALBERT D. Cleft lip and palate—surgical correction, 282
- DE COSTER, LUCIEN. New method of analysis of dentofacial malformations, 942
- , Use of rustless steel in dentofacial orthopedics, 1191
- DREYFUS, SYLVAIN. Observations on use of rubber bands in orthodontia, 1072

### E

- EDEL, A. An improved lingual lock, 612
- ELLIS, WALTER H. Holding instrument for soldering of lingual tubes, 74
- ENDICOTT, C. L. Unusual case of mandibular protrusion (Angle Class III), 970
- EVANS, GEORGE P. Children's dentistry, 980
- , Exodontia, anesthesia, radiography in children's dentistry, 729

### F

- FITZPATRICK, W. J. President's address before Southern Society of Orthodontists, 111
- FEDERSPIEL, MATTHEW N. Rhinophyma. With report of case, 92
- FLESHER, W. E. To what definite causes may malocclusion and its attending oral and facial abnormalities be attributed, 1274
- FUTTERMAN, MAX J. Self-correction of a maxillary lateral incisor in linguoversion, 233

### G

- GIFFORD, A. C. Clinical report illustrating the application of orthodontic principles in the treatment of fractures of the jaws, 1285
- GOLDSMITH, J. BEN. Occlusal or horizontal radiography as simplified by a new compact and practical mouth cassette, 1324
- GOODHUGH, THOS. Causes of inaccuracies in models and their prevention in impression taking, 602
- GRAY, B. FRANK. Ethics and business practice in orthodontia, 450
- , Ultimate results of orthodontic treatment, 569

- GRIEVE, GEORGE W. Orthodontic diagnosis, 927  
 —. Some theories obstructing progress of the science of orthodontia, 5  
 GRIFFIN, EDWARD M. Synopsis of correlation of diagnostic maps and technic of resilient arch assemblage in teaching of orthodontics, 1058  
 GROVE, E. W. (See Brown, James Barrett, Grove, E. W., and Pittman, J. E.), 1212  
 GUSTAT, JOSEPH. Muscle training and development of respiration as taught by musical wind instrumentalists, 846

## H

- HAMM, W. G. (See Brown, James Barrett, and Hamm, W. G.), 353, 504  
 HASTY, FREDERICK E. Some common problems of orthodontia and otolaryngology, 129  
 HELLMAN, MILO. An introduction to growth of human face from infancy to adulthood, 777  
 HENRY, O. A series of x-ray pictures showing horizontally impacted mandibular second premolar, which erupted into normal occlusion after removal of alveolar bone, 483  
 HERBST, EMIL. New ideas and apparatus in orthodontics, 962  
 HOWARD, CLINTON C. A phase of skeletal growth as influenced by sex hormones, 659  
 HUMPHREYS, HUMPHREY. Age changes in temporomandibular joint and their importance in orthodontics, 809  
 HYAMS, BERNARD L. Regulation of malocclusions, 165  
 HYATT, THADDEUS P. Letter to members of American Society for Promotion of Dentistry for Children, 1200

## I

- IRISH, RUSSELL E. Case reports, 62

## J

- JACKSON, ANDREW FRANCIS. Some modifications on labial and lingual arch technic, 184  
 —. Some variations in factors of malocclusion and their relations to treatment, 827  
 JONES, EARL G. Orthodontic education, 113

## K

- KAZANJIAN, V. H. Surgical treatment of mandibular prognathism, 1224  
 KELSEY, HARRY E. Double harelip and cleft palate showing importance of proper surgical and orthodontic treatment of premaxillary lobe or process, 145  
 KISKADDEN, W. S., and THOLEN, E. F. Primary and secondary repair of cleft lip, 863  
 KORKHAUS, GUSTAV. Rational plan of orthodontic treatment with aid of practical records, 608  
 —. Some helps in orthodontic practice, 489

## L

- LAMONS, FRANK F. Filling teeth for prevention of caries, 1096  
 —. Some points of interest in care of children's teeth, 1100  
 —. What will my child be, 1098  
 LAY, VICTOR. Case report, 238  
 LEHMAN, IRA A. (See Lewis, Samuel J., and Lehman, Ira A.), 1015  
 LEWIS, SAMUEL J., and LEHMAN, IRA A. Quantitative study of relation between certain factors in development of dental arch and occlusion of teeth, 1015  
 LOOFBOUROW, JOHN. Biologic effect of ultraviolet light, 134  
 LUNDSTRÖM, AXEL F. Local factors in malocclusion, 457

## M

- McFALL, WALTER T. Dentist's responsibility for children, 973  
 —. Fifth annual meeting of American Society for Promotion of Dentistry for Children, 1196  
 —. Health education in public schools, 984  
 —. Some basic lessons to be taught our people, 1295  
 MAITLAND, GORDON R. Review of oral surgery literature for 1931, 645  
 MARSHALL, JOHN ALBERT. Deficient diets and experimental malocclusion considered from clinical aspect, 438  
 MEAD, STERLING V. Streptococcic stomatitis, 748  
 —. Ulceromembranous stomatitis, 618  
 MINER, LEROY M. S. Place of orthodontia in dental education, 549  
 MOORE, GEORGE R. To what definite causes may malocclusion and its attending oral and facial abnormalities be attributed, 1265  
 MORRISON, FRED. Gas, 76  
 MUCKENFUSS, RALPH S., and BROWN, JAMES BARRETT. Granuloma inguinale, with report of case with involvement, 988  
 MURLLESS, FREDERIC T., JR. Preparation of teeth for correct cementation of bands, 221  
 —. Record of treatment, and subsequent history of a case of malocclusion and facial deformity, Class II, division 1 (Angle), 1915-1930, 57  
 MURPHY, R. H. Home care of mouth, 1093

## N

- NEUMANN, FRIEDRICH. Oversized tongues as causes of malocclusion, 467  
 NORD, CH. F. L. Orthodontia, an essential part of dental education, 545

## O

- OLIVER, OREN A. Mechanics versus the biologic, 15  
 —, and WOOD, CLAUDE R. Principles involved in lingual and labial arch with auxiliary spring attachments, 478  
 —, and —. Report of cases treated by use of lingual, labial appliances and guide plane, 1182  
 O'NEAL, J. R. Why we should take more interest in care of children's teeth, 1090

## P

- PIPPIN, BLAND N. Future dental education, 816  
 PITTMAN, J. E. (See Brown, James Barrett, Grove, E. W., and Pittman, J. E.), 1212  
 PITTS, A. T. Some observations on malocclusion of deciduous dentition, 148  
 PULLEN, HERBERT A. Mechanical therapy in orthodontia as indicated by growth and development of dental arches of children, 666

## R

- RAGSDALE, ANNE. Viewpoint of dental assistant and management of children in dental practice, 856  
 REINER, JACOB. Surgical correction of marked prognathism of the mandible, 271  
 RICHMOND, J. E. Effect of lower third of face on profile, 235  
 RIESNER, SIDNEY E. Mouth tunnel for intraoral stereoscopy, 1334  
 RIHAN, HABIB Y. Dental and orthodontic observations on 289 adult and 53 immature skulls from Pecos, New Mexico, 708  
 ROGERS, ALFRED PAUL. Physiologic exercises as applied to orthodontics, 43  
 ROSS, JOHN W. Treatment of distocclusion cases, 682

S

- SAUVLET, W. Surgical treatment of diastema, 1115
- SCHWARZ, A. MARTIN. Tissue changes incidental to orthodontic tooth movement, 331
- SCHWEITZER, ADA E. A doctor looks at a child's teeth, 1088
- SEEMAN, GEORGE F. Case reports, 99
- . Preoperative and postoperative care of patient presenting for oral surgery, 756
- SHELL, JOHN S. Radiographic examination of gold alloys, 70
- SIMON, PAUL W. Practical value of biometric norm in orthodontia, 957
- . Simplified gnathostatic method, 1081
- SIMPSON, CLARENCE O. A résumé of radiographic service in orthodontics, 291
- SIMPSON, D. HOYT. Practical points in porcelain work, 1298
- SKOGSBOG, CARL. Use of septotomy (surgical treatment) in connection with orthodontic treatment, and value of method as proof of Walkhoff's theory of tension of bone tissue after regulation of teeth, 1044
- SMITH, C. CARROLL. Dental health education in public schools, 859

- WINTER, LEO. Postoperative pain as problem of clinical dentistry, 527
- WOOD, CLAUDE R. President's address before Southern Society of Orthodontists, 1255
- . (See Oliver, Oren A., and Wood, Claude R.), 478, 1182
- WOODBURY, W. W. Summary of trend of papers presented before Southern Society of Orthodontists, 1342

## SUBJECT INDEX

### A

Abnormalities, nasal, fancied and real, 363  
 oral and facial, malocclusion and, to what  
 definite causes may they be at-  
 tributed, 1259, 1265, 1274  
 Abrasion of deciduous teeth, absence of, 465  
 Absence of permanent teeth, 473  
 Academy of Pediatrics, 105  
 Actinomycoses, 1313  
 Acute infections about jaws of dental ori-  
 gin, 504  
   upper respiratory infection in infants and  
   children, 533  
 Adamantinoma, cystic, with resection, in-  
 cluding condyle, from inside of  
 mouth, 1104  
 Adenoids and tonsils, 663  
 Adenotomy, reestablishing normal nasal  
 respiration after, 1336  
 Age changes in temporomandibular joint  
 and their importance in ortho-  
 dontics, 809  
 Air passages, nasal, congenital atresia or  
 obstruction, 516  
 Alloys, gold, radiographic examination of,  
 70  
 Alveolar bone, removal of, 483  
   process, effect of tension of peridental  
   membrane on, 906  
 American administrative practice in con-  
 trol of scarlet fever, 763  
   Board of Orthodontia, 216, 322, 433, 1129,  
   1252  
     functions and plans of, 310  
   Congress of Physical Therapy Section on  
   Stomatology, 658, 776, 894  
   Dental Assistants Association, 218, 324,  
   543, 658, 776, 894  
   Dental Association with Chicago Centen-  
   nial Dental Congress in 1933,  
   1128, 1355  
   Society for Advancement of General An-  
   esthesia in Dentistry, 109, 429,  
   774, 893, 1013, 1249  
     for Promotion of Dentistry for Chil-  
     dren, fifth annual meeting of,  
     1196  
       letter to members, 1200  
       resolutions of, 1198  
     of Oral Surgeons and Exodontists, 657,  
     775, 893  
     of Orthodontists, 1012, 1129, 1249, 1356  
       in memoriam resolutions, 769  
       president's address, 1251  
       thirtieth annual meeting, minutes of,  
       245  
       thirty-first annual meeting, 210, 316,  
       420, 766  
       minutes of, 1290  
 Analgesia and anesthesia, recent advances  
 in, 1247  
 Anchorage, 1182  
   intermaxillary, Baker's, 1073  
 Anemia, pernicious, parenteral use of liver  
 extract in, 1123  
   value of feeding oysters in, 761  
 Anemias, treatment of, 405  
 Anesthesia and analgesia, recent advances  
 in (book review), 1247  
   deep block, of second and third divisions  
   of fifth nerve, 193  
   gas, 76  
   in children's dentistry, 729  
   local, causes of postoperative pain fol-  
   lowing, 528  
 Angina, Vincent's, 633

Angle, Edward Hartley, tribute given at  
 memorial meeting to, 203  
 Ankylosis, 916  
   bony, 353  
   soft tissue, 358  
 Answer of St. Louis Dental Society to pro-  
 posed newspaper advertising, 413  
 Anterior pituitary growth hormone, diet  
 and, influence of, on growth rate  
 of adolescent rats, 303  
 Apparatus, new ideas and, in orthodontics,  
 962  
 Appliances, labial and lingual, some newer  
 designs in, and their construc-  
 tion, 47  
   lingual, labial, and guide plane, use of,  
   1182  
   selection of, 1182  
 Arch and jaw growth, correlation of, 662  
   construction, technic of, 1193  
   dental, development of, and occlusion of  
   teeth, relation between certain  
   factors in, 1015  
   high labial, 1185  
   lingual and labial, with auxiliary spring  
   attachments, principles involved,  
   478  
   resilient, assemblage, technic of, cor-  
   relation of diagnostic maps and,  
   in teaching of orthodontics, 1058  
 Arches, dental, of children, growth and de-  
 velopment of, mechanical ther-  
 apy in orthodontia as indicated  
 by, 666  
 Arthritis and rheumatic affections, focal in-  
 fection in, 1320  
   relation of intestinal tract and diet to  
   treatment of, 1338  
   rheumatoid, malnutrition in, 200  
 Articulation, temporomandibular, in maloc-  
 clusions, 34  
 Assistance, orthodontia, 849  
 Assistant, dental, viewpoint of, and man-  
 agement of children in dental  
 practice, 856  
 Assistants', dental, manual (book review),  
 315  
 Association of American Women Dentists,  
 543, 658, 776, 892  
 Asthma, infective, indication of its allergic  
 nature, 534  
 Asymmetrical dental stigmata in congeni-  
 tal syphilis, 1242  
 Atresia, congenital, of nasal air passages,  
 516  
 Attachments, auxiliary spring, lingual and  
 labial arch with, principles in-  
 volved in, 478  
 Auxiliary spring attachments, lingual and la-  
 bial arch with, principles involved  
 in, 478

### B

Bacteria, living, disappearance of, from  
 blood stream, 303  
 Baker's intermaxillary anchorage, 1073  
 Band construction, technic of, 1192  
 Bands, cementation of, preparation of teeth  
 for, 221  
   rubber, observations on use of, in ortho-  
   dontia, 1072  
 Bartlett, Walter M., 775  
 Biologic effect of loop spring, 347  
   effects of ultraviolet light, 134  
   mechanics versus the, 15

Biometric norm, practical value of, in orthodontia, 957  
 Block anesthesia, deep, of second and third divisions of fifth nerve, 193  
 Blood stream, disappearance of living bacteria from, 303  
 Bone, alveolar, removal of, 483  
   changes in, as result of pressure, 911  
   growth, similarities in, 660  
   progress of hand, 660  
   tension on, effect of, 913  
 Bony ankylosis, 353  
   lesions in malocclusions, 35  
 Boys, delinquent, educational achievement of, 1240  
 Brash, conclusions of, 1270  
 Breast feeding, 662  
 British and Canadian Dental Associations, joint convention of, 324  
   Ontario Dental Associations, joint convention of, 775  
 Brophy operation, 283  
 Brushing teeth, 1094  
 Business practice, ethics and, in orthodontia, 450

## C

Calcium-phosphorus ratio, phosphorus and, in caries susceptibility and immunity in experimental animals, 1240  
 Canadian and British Dental Associations, joint convention of, 324  
   and Ontario Dental Associations, joint convention, 775  
 Canal, posterior palatine, broken needle in region of, technic for removal of, 1322  
 Cancer arising in lining of mouth or region of teeth or jaws, protection from, 402  
 Cardiac examinations, results of, among school children, 202  
 Care of children's teeth, some points of interest, 1100  
   why we should take more interest in, 1090  
   of mouth at home, 1093  
   preoperative and postoperative, of patient presenting for oral surgery, 756  
 Caries and tonsillar enlargement, vitamin D deficiency, 100  
   prevention of, filling teeth for, 1096  
   susceptibility and immunity, phosphorus and calcium-phosphorus ratio in, 1240  
 Carrying on, 1194  
 Case report, 99  
   Class I, neutroclusion, 238  
   reports, 62  
 Cassette, mouth, new compact and practical, occlusal or horizontal radiography as simplified by, 1324  
 Causes of inaccuracies in models and their prevention in impression taking, 602  
 Cementation of bands, preparation of teeth for, 221  
 Cementum, changes in, as result of pressure, 916  
   damage to, 906  
   tension on, effect of, 916  
 Ceramics, 1298  
 Cerebral manifestations of lead poisoning in children, 535  
 Change in editorship, 103  
 Changes, tissue, incidental to orthodontic tooth movement, 331  
 Chart, food, 1204  
 Charter, children's, from White House Conference on Child Health and Protection, 1210  
 Chicago Centennial Dental Congress, 1248, 1355  
 Chickenpox, convalescent serum in prophylaxis of, 535  
 Child conservation and the orthodontist, 104  
   nervous, 761  
   operative dentistry for, 723  
   what will mine be, 1098  
 Childhood and infancy, vitamin D in, clinical significance of, 1001  
 Child's posture, your, 886  
 Teeth, a doctor looks at, 1088  
 Children, 537  
   and infants, acute upper respiratory infection in, 533  
   dental conditions, importance to pediatric, 852  
   dentist's responsibility for, 973  
   diet for, 1099, 1202  
   hyperthyroidism in, 1122  
   lead poisoning in, cerebral manifestations of, 535  
   management of, in dental practice, viewpoint of dental assistant and, 856  
   psychoneuroses in, 1121  
   school, cardiac examinations among, results of, 202  
   skin temperatures of, 101  
 Children's charter from White House Conference on Child Health and Protection, 1210  
 Dentistry, 980  
   department of, 721, 764  
   exodontia, anesthesia, radiography in, 729  
   orthodontist and, 1004  
   schools and, 410  
   teeth, care of, some points of interest in, 1100  
   why we should take more interest in, 1090  
 Class I, neutroclusion, case report, 63, 64, 238  
 II, distocclusion, case report, 66, 67  
 III, mandibular protrusion, unusual case of, 970  
   mesiocclusion, case report, 62  
 Cleft lip and palate—surgical correction, 282  
   repair of, primary and secondary, 863  
   palate and lip, surgical correction of, 282  
   double harelip and, showing importance of proper surgical orthodontic treatment of premaxillary lobe or process, 145  
 Clinical dentistry, postoperative pain as problem of, 527  
 Cold, common, studies in, relationship of pathogenic bacteria to upper respiratory disease in infants, 885  
 Coma, diabetic, 534  
 Common cold, studies in, relationship of pathogenic bacteria to upper respiratory disease in infants, 885  
 Condyle, resection including, cystic adamantinoma with, from inside of mouth, 1104  
 Congenital atresia or obstruction of nasal air passages, 516  
   factors in malocclusions, 25  
   heart disease, causation and prevention of, 100  
 Construction of some newer labial and lingual appliances, 47  
 Convalescent serum in prophylaxis of measles, chickenpox and mumps, 535  
 Correction of stubborn types of mouth-breathing, new method for, 843  
 Correspondence, 208  
 Critical review of Gottlieb and Orban's "Die Veränderungen der Gewebe bei Uebermaessiger Beanspruchung der Zähne, 895  
 Cystic adamantinoma with resection, including condyle, from inside of mouth, 1104

## D

- Damage to cementum, 906  
 Deciduous dentition, malocclusion of, some observations in, 148  
   teeth, absence of abrasion of, 465  
 Deep block anesthesia of second and third divisions of fifth nerve, 193  
 Defects, palate, secondary, 288  
 Deficiency, vitamin D, dental caries, and tonsillar enlargement, 100  
 Deficient diets and experimental malocclusion considered from clinical aspect, 438  
 Deformity, facial, malocclusion and Class II, Division 1 (Angle), record of treatment and subsequent history of case of, 57  
 Delegates, 889  
 Dental and orthodontic observations on adult and immature skulls from Pecos, New Mexico, 708  
   arch, development of, and occlusion of teeth, relation between certain factors in, 1015  
   arches of children, growth and development of, mechanical therapy in orthodontia as indicated by, 666  
   assistant, viewpoint of, and management of children in dental practice, 856  
   assistants' manual (book review), 315  
   causes of malocclusions, 35  
   conditions in children, importance to pediatricist, 852  
   education, future, 816  
     orthodontia an essential part of, 545  
     place of orthodontia in, 549  
     teaching of practical orthodontia in undergraduate curriculum, 553  
   floss, 1095  
   health education in public schools, 859  
   Hygienists Association of State of New York, 109, 219, 324  
   laboratories, 1252  
   museum, national, 656

 profile views, 300  
 service in orthodontics, résumé of, 291
- Radiography in children's dentistry, 729  
 occlusal or horizontal, as simplified by new compact and practical mouth cassette, 1324
- Ranula, hemangioma, lymphangioma and, 1316
- Rats, adolescent, influence of diet and anterior pituitary growth hormone on growth rate of, 303
- Reenameling teeth, 1299
- Records, practical, rational plan of orthodontic treatment with aid of, 608
- Regulation of malocclusions, 165
- Removal of alveolar bone, 483
- Removing broken needle in region of posterior palatine canal, technic for, 1322
- Repair of cleft lip, primary and secondary, 863
- Research, 1253  
 orthodontic, 434
- Resection, including condyle, cystic adamantinoma with, from inside of mouth, 1104

- Resilient arch assemblage, technic of, correlation of diagnostic maps and, in teaching of orthodontics, 1058
- Respiration, development, muscle training and, as taught by musical wind instrumentalists, 846
  - reestablishing normal nasal, after adenotomy, 1336
- Respiratory flora of Eskimos in remote northern regions, 884
  - infection, acute upper, in infants and children, 533
  - infections, in infants, relationship of vitamin A to, 201
- Responsibility, dentist's, for children, 973
- Results, ultimate, of orthodontic treatment, 569
- Retrusion, secondary, of maxillary incisors, 465
- Review, critical, of Gottlieb and Orban's "Die Veränderungen der Gewebe bei Uebermaessiger Beanspruchung der Zähne," 895
  - of oral surgery literature for 1931, 645
- Rheumatic and arthritic affections, focal infection in, 1320
- Rheumatoid arthritis, malnutrition in, 200
- Rhinophyma, 92
- Rickets and toxi-infections in malocclusions, 30
  - in Sydney, Australia, 884
- Rotation of teeth, 1184
- Rubber bands, observations on use of, in orthodontia, 1072
- Rustless steel, use of, in dentofacial orthopedics, 1191

## S

- St. Louis Dental Society's answer to proposed newspaper advertising, 413
- Scarlet fever, control of, American administrative practice in, 763
  - duration of isolation in, 1242
- Schools, children's dentistry and, 410
  - public, dental health education, 859
  - health education in, 984
- Second International Orthodontic Congress, president's address, 325
- Secondary palate defects, 288
- Self-correction of maxillary lateral incisor in linguoversion, 233
- Septotomy in connection with orthodontic treatment, value of method as proof of Walkhoff's theory of tension of bone tissue after regulation of teeth, 1044
- Serum, convalescent, in prophylaxis of measles, chickenpox and mumps, 535
- Sex hormones, skeletal growth as influenced, phase of, 659
- Skeletal growth as influenced by sex hormones, phase of, 659
- Skin temperature of children, 101
- Skulls, adult and immature, from Pecos, New Mexico, dental and orthodontic observations on, 708
- Society of Plastic and Reconstructive Surgery, 776, 894, 1014, 1130
- Soldering technic, 481
  - tubes, 479
- Southern Society of Orthodontists, 543, 657, 774, 891, 1010, 1129, 1342
  - president's address, 111, 1255
  - summary of trend of papers presented before, 1342
  - views of twelfth annual meeting, 1347
- Southwestern Society of Orthodontists, 218, 1354
- Specialism, 1125
- Spring, auxiliary, attachments, lingual and labial arch with, principles involved in, 478
  - loop, biologic effect of, 347
- Steel, rustless, use of, in dentofacial orthopedics, 1191
- Stereoroentgenograms, mouth tunnel for, 300
- Stereoscopy, intraoral, mouth tunnel for, 1334
- Sterilization of toothbrush, 1095
- Stomatitis, streptococcic, 748
  - ulceromembranous, 618
- Strains, mechanical, influence of permanent, especially through pressure, 461
- Streptococcic stomatitis, 748
- Summary of trend of papers presented before Southern Society of Orthodontists, 1342
- Sunshine and vitamin D, 206
- Supernumerary teeth, origin of, 1260
- Surgery, oral literature, review of, for 1931, 645
  - practice of, 85
  - preoperative and postoperative care of patient presenting for, 756
- Surgical correction of marked prognathism of mandible, 271
  - treatment in connection with orthodontic treatment, value of method as proof of Walkhoff's theory of tension of bone tissue after regulation of teeth, 1044
    - of cleft lip and palate, 282
    - of diastema, 1115
    - mandibular prognathism, 1224
- Syphilis, congenital, asymmetrical dental stigmata in, 1242
  - geographic tongue and hypertrophied papillae, 1218
- Syphilitic infections about mouth, 1311

## T

- Tax, precious metals used in dentistry exempt from, 1006
- Teaching of orthodontics, correlation of diagnostic maps and technic of resilient arch assemblage in, 1058
  - problems in orthodontic education, 78
- Teeth, brushing, 1094
  - child's, doctor looks at, 1088
  - children's, care of, some points of interest in, 1100
    - why we should take more interest in, 1090
  - deciduous, absence of abrasion of, 465
  - early loss of, effects of, 464
  - filling, for prevention of caries, 1096
  - occlusion of, relation between certain factors in development of dental arch and, 1015
  - of children and adults, malocclusion of, consideration of, 473
  - or jaws, region of, lining of mouth and, protection from cancer arising in, 402
  - permanent, absence of, 473
  - preparation of, for correct cementation of bands, 221
